INDEPENDENT AUDITOR'S REPORT

Board of Supervisors
Tindall Hammock Irrigation and Soil Conservation District
Fort Lauderdale, Florida

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business type activities and each major fund and the aggregate remaining fund information of Tindall Hammock Irrigation and Soil Conservation District ("the District"), as of and for the year ended September 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, business type activities, and the aggregate remaining fund information of the Tindall Hammock Irrigation and Soil Conservation District, as of September 30, 2015, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3 through 8 and 32 through 34 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 16, 2016, on our consideration of the Tindall Hammock Irrigation and Soil Conservation District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance.

That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Tindall Hammock Irrigation and Soil Conservation District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

**TINDALL HAMMOCK IRRIGATION AND SOIL CONSERVATION DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)
September 30, 2015**

The management of Tindall Hammock Irrigation and Soil Conservation District would like to provide readers of the District's financial statements this narrative overview and analysis of the financial activities for the fiscal year ended September 30, 2015. Readers are encouraged to consider the information presented in this discussion and analysis in conjunction with the District's basic financial statements, which are contained herein and commence on page 10.

Prior to discussing the financial position of the District, the following information is offered to the readers. The Tindall Hammock Irrigation and Soil Conservation District exists pursuant to the provisions of Ch. 98-523, Laws of Florida, as amended, a Special Act of the Florida Legislature. The District was originally formed in 1951 and today the District manages approximately 780 acres in central Broward County, Florida, and serves a population of approximately 5,089 residents. The District, a special purpose unit of local government, has powers to manage stormwater, and exercise flood control, as well as own and operate utilities. Such powers include the ability to borrow money, and issue bonds or other evidences of indebtedness, to assess and levy upon all the lands in the District annual drainage, administrative and maintenance taxes, and to install and foreclose special assessment liens.

FINANCIAL HIGHLIGHTS

The District's total assets exceeded total liabilities by \$13,424,071 (net position). Unrestricted net position for governmental activities was \$6,803,819 and \$(5,343,543) for business-type activities. The restricted net position for the impact fee fund was \$11,836.

Governmental activities revenues totaled \$1,696,115 while governmental activities expenses totaled \$434,847. Business – type operating revenues totaled \$2,474,990. Business – type expenses totaled \$1,814,167. Impact fee revenues totaled \$64,333. Impact fee activities consisted of fund transfers to the proprietary fund of \$422,957.

DISTRICT HIGHLIGHTS

During the 2015 fiscal year the District completed the following capital improvements projects:

A Five Year Capital Plan was developed to address needed and required improvements at the utility plant. An invitation to bid was prepared and released in August 2013 to address the first phase of the plan. The bid was awarded to the low-bidder, R.J. Sullivan, in October 2013 in the amount of \$4,140,000. Implementation of the plan began in January 2014. At present, five change orders have been approved which expand the scope of work to address unanticipated issues arising during the improvement project, increasing the cost of the improvements by \$ \$261,946. The first and most extensive phase of the five year plan was completed in various stages by R.J. Sullivan and became fully operational between July and September 2015.

**TINDALL HAMMOCK IRRIGATION AND SOIL CONSERVATION DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)**

September 30, 2015

DISTRICT HIGHLIGHTS (continued)

The key change order related to new Florida Department of Environmental Protection (FDEP) requirements for effluent piping. One byproduct of the capital improvements in concert with the FDEP permit renewal was to permit the utility as a re-use facility. The utility will be able to sell re-claimed water for irrigation purposes at some point in the near future.

A total of six (6) new sampling points were installed to improve water sampling in various locations throughout the service area.

Infrastructure for the potable water distribution, wastewater collection and wastewater pumping systems for the Value Place Ft. Lauderdale FL West-Davie LLC (aka Value Place) and the CC Davie II, LLC (aka Toscana II) developments were completed and contributed to the District.

Infrastructure for the potable water distribution for the Bridge Point Davie LLC (aka Bridge Point Davie) development was completed and contributed to the District.

Additional metering equipment was installed in conjunction with the residential and industrial development activity within the District.

The five year recertification process was continued for property owners within the District with a total of six (6) five year renewal certifications completed during the fiscal year.

OVERVIEW OF THE FINANCIAL STATEMENTS

The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. The government-wide financial statements present an overall picture of the District's financial position and results of operations. The fund financial statements present financial information for the District's major funds. The notes to the basic financial statements provide additional information concerning the District's finances that are not disclosed in the government-wide or fund financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements

The government-wide financial statements are the Statement of Net Position and the Statement of Activities. These statements use accounting methods similar to those used by private sector companies. Emphasis is placed on the net position of governmental activities and business-type activities and the change in net position. Governmental activities are primarily supported by assessments and property taxes. Business-type activities are supported by charges to the users of those activities, such as water and sewer services.

**TINDALL HAMMOCK IRRIGATION AND SOIL CONSERVATION DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)**

September 30, 2015

Government-wide financial statements (continued)

The Statement of Net Position presents information on all assets, deferred outflows of resources, deferred inflows of resources and liabilities of the District, with the difference between the four reported as net position. Net position is reported in three categories: 1) investment in capital assets, net of related debt, 2) restricted and 3) unrestricted. Assets, liabilities, and net position are reported for all governmental activities separate from the assets, liabilities, and net position of business-type activities.

The statement of activities presents information on all revenues and expenses of the District and the change in net position. Expenses are reported by major function and program. Revenues relating to those functions are reported, providing the net cost of all functions provided by the District. To assist in understanding the District's operations, expenses have been reported as governmental activities or business-type activities. Governmental activities financed by the District include physical environment and general government. Business-type activities financed by user charges include water and sewer services.

Fund Financial statements

Fund financial statements present financial information for governmental funds and proprietary funds. These statements provide financial information for the major funds of the District. Governmental fund financial statements provide information on the assets and liabilities of the fund, changes in current financial resources (revenues and expenditures), and available resources. The Enterprise Fund financial statements provide information on all assets and liabilities of the funds, changes in the economic resources (revenues and expenses), and total economic resources.

Fund financial statements include a balance sheet and a statement of revenues, expenditures, and changes in fund balance for all governmental funds. A statement of revenues, expenditures, and changes in fund balance - budget and actual, is provided for the District's General Fund. For the Enterprise Fund, a statement of net position, a statement of revenues, expenses, and changes in net position, and a statement of cash flows are presented. Fund financial statements provide more detailed information about the District's activities. Individual funds are established by the District to track revenues that are restricted to certain uses and comply with legal requirements.

The government-wide financial statements and the fund financial statements provide different pictures of the District. The government-wide financial statements provide an overall picture of the District's financial standing, split between governmental activities and business-type activities. These statements are comparable to private-sector companies and give a good understanding of the District's overall financial health and how the District paid for the various activities, or functions, provided by the District. All assets of the District, including buildings, machinery and equipment, and infrastructure are reported in the statement of net position. All liabilities, including principal outstanding on debt, and future employee benefits, obligated but not paid by the District, are included. The statement of activities includes provision for depreciation of all long lived assets of the District, but transactions between the different functions of the District have been eliminated in order to avoid "doubling up" the revenues and expenses.

**TINDALL HAMMOCK IRRIGATION AND SOIL CONSERVATION DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)**

September 30, 2015

Government-wide financial statements (continued)

The fund financial statements provide a picture of the major funds of the District. In the case of governmental activities, outlays for long-lived assets are reported as expenditures, and long-term liabilities, such as general obligations bonds, are not included in the fund financial statements. To provide a link from the fund financial statements to the government-wide financial statements, reconciliation is provided.

Notes to the Basic Financial statements

The notes provide additional detail concerning the financial activities and financial balances of the District, information about the accounting practices of the District, investments of the District, and long-term debt. It is important for readers to spend time understanding these notes as they contain important information related to the financial statements.

THE DISTRICT AS A WHOLE

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of Tindall Hammock Irrigation and Soil Conservation District, assets exceeded liabilities by \$13,424,071 at the close of the most recent year. The largest portion of the District's net position (89%) reflects its investments in capital assets (land, buildings, machinery and equipment, and infrastructure). The District uses capital assets to provide services to property owners, residents and businesses; accordingly, these assets are not available for future spending.

The District adopted the fiscal year 2014-2015 General and Proprietary Fund Budgets on September 25, 2014. The District made no amendments to the budget during the fiscal year. Total General Fund expenditures budgeted for the fiscal year ended September 30, 2015, were \$1,788,979 which excludes capital or proprietary expenditures. Total actual general fund expenditures were \$382,421. The significant difference between budgeted and actual expenditures was largely due to a principal payment on long-term debt that was deferred to fiscal year 2015-2016 and contingent items that were not undertaken or needed during the fiscal year. Total Proprietary Fund expenditures budgeted for the fiscal year ended September 30, 2015, were \$1,233,067, while the actual Proprietary Fund expenditures were \$1,278,465. The significant difference between budgeted and actual expenditures was due solely to maintenance and insurance costs related to the ongoing capital improvement program. The capital budget relating to the Fern Crest Water and Wastewater Improvements for the fiscal year 2014-2015 was \$3,812,174 of which \$2,635,693 was spent. The difference between budgeted and actual capital expenditures relates solely to project timing. Given the uncertainty of the timing of new development activities within the District boundaries, no expenditures from the Impact Fee Fund were budgeted however \$422,957 in funds transfers were made to cover some costs of the capital improvement program.

ACQUISITION OF WATER AND WASTEWATER UTILITY SYSTEM

The District acquired Ferncrest Utilities, Inc. on November 3, 2008, through the issuance of \$1,983,587 of its Ad Valorem Tax Bond Anticipation Notes, Series 2008, as payment of a portion of the purchase price of \$4,240,000.

NOTES TO FINANCIAL STATEMENTS

TINDALL HAMMOCK IRRIGATION AND SOIL CONSERVATION DISTRICT
Notes to Financial Statements

(1) DESCRIPTION OF THE TINDALL HAMMOCK IRRIGATION AND SOIL CONSERVATION DISTRICT

The Tindall Hammock Irrigation and Soil Conservation District ("District") exists pursuant to the provisions of Chapter 98-523, Laws of Florida, as amended, a Special Act of the Florida Legislature. The District was originally formed in 1951 and includes approximately 780 acres in central Broward County, Florida.

The District is a special purpose unit of a local government with powers in the areas of stormwater management, flood control, and utility ownership and operation. Such powers include ability to borrow money and issue bonds or other evidences of indebtedness, levy and impose upon all the lands in the District annual drainage, administrative, and maintenance taxes and impose and foreclose special assessment liens.

On November 3, 2008, the District acquired the operating assets of Ferncrest Utilities, Inc. located in Davie, Florida. On September 30, 2015, the utility had approximately 778 customers for water services and 713 customers for sewer services.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the District have been prepared in conformity with generally accepted accounting principles ("GAAP") as applied to government units. The Government Accounting Standards Board ("GASB") is the standard-setting body for establishing government accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

(a) Reporting Entity

The District follows the standards promulgated by GASB Statement No. 14, *The Financial Reporting Entity*, as amended by GASB Statement No. 39, *Determining Whether Certain Organizations are Component Units*, to define the reporting entity. The District's financial statements include operations for which the District exercises oversight responsibility. Oversight responsibility is demonstrated by financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations and accountability for fiscal matters. The District has not identified any component units and is not a participant in any joint-venture; accordingly, operations of no other entities have been included in the financial statements.

The District implemented the requirements of GASB 54 Fund Balance Reporting and Governmental Fund Type Definitions during the year ending September 30, 2011. The District has implemented the requirements of GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources and Net Position*, during

TINDALL HAMMOCK IRRIGATION AND SOIL CONSERVATION DISTRICT
Notes to Financial Statements (Continued)

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

the year ended September 30, 2013. This Statement provides financial reporting guidance for deferred outflows of resources and deferred inflows of resources.

This Statement amends the net asset reporting requirements in Statement No. 34, Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments, and other pronouncements by incorporating deferred outflows of resources and deferred inflows of resources into the definitions of the required components of the residual measure and by renaming that measure as net position, rather than net assets. The District did not have any deferred outflows or deferred inflows of resources as of September 30, 2015.

(b) Government-Wide and Fund Financial Statements

The basic financial statements include both government-wide and fund financial statements. The government-wide statements focus on the District as a whole, while the fund financial statements focus on major individual funds.

The government-wide financial statements include a statement of net position and a statement of activities. These statements report information on all activities of the District. Inter-fund activity has been eliminated from these statements. The statement of activities demonstrates the extent to which the expenses of the District are offset by the revenues collected by the District. Revenues collected include the investment income earned during the year.

(c) Major Funds

Governmental Fund Type

Government funds are used to account for the District's expendable financial resources and related liabilities. The following are the District's governmental fund types:

General Fund - The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

Impact Fee Fund – The Impact Fee Fund is a restricted fund. It is used to account for all fees and expenditures of said fees relating to the charging of an impact fee for water and sewer services

Proprietary Fund Type

Water and Sewer Fund - The Water and Sewer Fund is an enterprise fund established to account for operations that are to be financed and operated in a manner similar to private business enterprises. The costs of providing services to customers are to be recovered primarily through user charges.

TINDALL HAMMOCK IRRIGATION AND SOIL CONSERVATION DISTRICT
Notes to Financial Statements (Continued)

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(d) Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows.

Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met. Governmental fund financial statements are reported using the current financial resources measurement and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers maintenance taxes to be available if they are collected within sixty days of the end of the current fiscal period. A one-year availability period is used for all other revenues.

Revenues susceptible to accrual are maintenance taxes and interest on investments. Maintenance taxes are recorded as revenues in the fiscal year they are levied, provided they are collected in the current period or within sixty days thereafter. Interest on invested funds is recognized when earned.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, expenditures related to compensated absences, claims and judgments, are recorded only when payment is due.

The Proprietary Fund uses the accrual basis of accounting. Revenue is recognized when earned, and expenses are recognized when incurred.

(e) Budgetary Procedures and Accounting

An annual budget is adopted for the General Fund on a basis consistent with GAAP, except the budgets include encumbrances as the equivalent of expenditures, and do not include revenues and expenditures related to certain special projects. As of September 30, 2015, the "actual budgetary basis" is presented on a basis which is not consistent with GAAP.

Before August of each year, the District Chairman, in conjunction with the District Management Company and the District Attorney, submits to the Board of Supervisors the proposed budget for the fiscal year commencing October 1. The District holds workshops and public hearings on the proposed budget. Prior to the end of each fiscal year, the budget is formally adopted for the ensuing year.

TINDALL HAMMOCK IRRIGATION AND SOIL CONSERVATION DISTRICT
Notes to Financial Statements (Continued)

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(e) Budgetary Procedures and Accounting (continued)

The legal level of control, the level at which expenditures may not exceed the budget, is at the total expenditure level. Should additional expenditures be necessary during the year, the District has the authority to modify the budget by a majority vote of its Board.

(f) Capital Assets and Depreciation

Capital assets, which include land, buildings, infrastructure, machinery and equipment and construction- in-progress are reported in the governmental or business-type activities columns in the government-wide financial statements. All capital assets are valued at historical cost or estimated cost when actual historical cost is not available. Donated and confiscated capital assets are valued at their estimated fair value on the date donated or when awarded by the courts. The District defines capital assets as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of one year. Depreciation on all capital assets is charged to operations using the straight-line method over the assets' estimated service lives, ranging from 5 - 40 years.

Maintenance, repairs, and minor renovations are not capitalized. Expenditures that materially increase values or extend useful lives are capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

| <u>Asset</u> | <u>Years</u> |
|---------------------------------------|--------------|
| Equipment | 5-7 |
| Water and sewer equipment | 5-7 |
| Water and sewer infrastructure | 15-40 |
| Water Control Structures | 15-50 |
| (Including storm water pump stations) | |

Depreciation expense is reflected in the financial statements in accordance with GASB Statement No. 34 requirements for capital assets greater than \$5,000.

(g) Prepaid Expenses/Expenditures

Certain payments reflect costs applicable to a future accounting period and are recorded as prepaid items in both government-wide and fund financial statements.

(h) Accounts Receivable

Accounts receivable reflected in the Water and Sewer Enterprise Fund consist of charges to

TINDALL HAMMOCK IRRIGATION AND SOIL CONSERVATION DISTRICT
Notes to Financial Statements (Continued)

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(h) Accounts Receivable (continued)

customers for service. As of September 30, 2015 an allowance for doubtful accounts in the amount of \$6,097 is considered necessary.

(i) Encumbrances

For governments that use encumbrance accounting, significant encumbrances should be disclosed in the notes to the financial statements by major funds and non-major funds in the aggregate in conjunction with required disclosures about other significant commitments.

Encumbered amounts for specific purposes for which resources already have been restricted, committed, or assigned should not result in separate display of the encumbered amounts within those classifications. Encumbered amounts for specific purposes for which amounts have not been previously restricted, committed, or assigned should not be classified as unassigned but, rather, should be included within committed-or assigned fund balance. The District includes encumbrances in the committed fund balance. There are no encumbrances outstanding as of September 30, 2015.

(j) Due To/From Other Funds

Short-term inter-fund transactions, when applicable, are recorded by the lending fund as a receivable with a corresponding payable recorded by the borrowing fund. Repayments reduce the corresponding receivable and payable. Inter-fund balances are eliminated in the government-wide financial statements.

(k) Bond Issuance Costs

Bond issuance costs are amortized over the lives of the bond issues using the straight-line method which approximates the interest method.

(l) Cash Equivalents

For purposes of the statement of cash flows, the District considers all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased to be cash equivalents.

(m) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the

TINDALL HAMMOCK IRRIGATION AND SOIL CONSERVATION DISTRICT
Notes to Financial Statements (Continued)

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(m) Use of Estimates (continued)

date of the financial statements and the reported amounts of revenues and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

(n) Fund Balance

The Governmental Accounting Standards Board (GASB) released GASB Statement No. 54 - "Fund Balance Reporting and Governmental Fund Type Definitions" ("GASB 54") on March 11, 2009 which is effective for fiscal years beginning after June 15, 2010.

This new Statement is intended to improve the usefulness of information reported about fund balance by providing more structured classification and by clarifying the definitions of existing governmental fund types. This Statement applies to fund balance reported in the General Fund, Special Revenue Fund, Debt Service Fund, Capital Projects Fund and Permanent Fund. This Statement does not apply to Enterprise Funds, Internal Service Funds, and restricted reserves.

Previously, fund balance was classified as "reserved" or "unreserved." Unreserved fund balance was further allocated into designated and undesignated. GASB 54 now changes how fund balance will be reported. The hierarchy of the GASB 54 classifications is as follows:

Non-spendable Fund balance includes amounts not in spendable form, such as inventory, or amounts required to be maintained intact legally or contractually. The District uses the consumption method of reporting inventory; therefore, it is not reported as a non-spendable fund balance.

Restricted Fund Balance includes amounts constrained for a specific purpose by external parties.

Committed Fund Balance includes amounts constrained for a specific purpose by a government using its highest level of decision making authority. The District's outstanding encumbrances would be included in the committed fund balance. There are no encumbrances outstanding as of September 30, 2015.

Assigned Fund Balance includes general fund amounts constrained for a specific purpose by the District's board.

Unassigned Fund Balance is the residual classification for the general fund.

The District's board approves all transactions that occur with respect to the committed fund balance.

TINDALL HAMMOCK IRRIGATION AND SOIL CONSERVATION DISTRICT
Notes to Financial Statements (Continued)

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(n) Fund Balance (continued)

In circumstances where an expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources will be expended is as follows: restricted fund balance, followed by committed fund balance, assigned fund balance, and lastly, unassigned fund balance.

There was no restatement required to the opening fund balances as a result of the GASB 54 implementation.

(o) Impact of Recently Issued Accounting Pronouncements

In June 2012, GASB issued Statement No. 68 *Accounting and Financial Reporting for Pensions - an amendment of GASB Statement No. 27*. The scope of this Statement addresses accounting and financial reporting for pensions that are provided to the employees of state and local governmental employers through pension plans that are administered through trusts that meet certain characteristics. This statement establishes standards for measuring and recognizing liabilities, deferred outflows of resources, and deferred inflows of resources, and expense/expenditures. For defined benefit pensions, this Statement identifies the methods and assumptions that should be used to project benefit payments, discount projected benefit payments to their actuarial present value, and attribute that present value to periods of employee service. The provisions of this Statement are effective for financial statement periods beginning after June 15, 2014. The District implemented this Statement in its fiscal year beginning October 1, 2014.

In January 2013, GASB issued Statement No. 69 *Government Combinations and Disposals of Government Operations*. This Statement requires disclosures to be made about government combinations and disposals of government operations to enable financial statement users to evaluate the nature and financial effects of those transactions. The provisions of this Statement are effective for government combinations and disposals of government operations occurring in financial reporting periods beginning after December 15, 2013, and should be applied on a prospective basis. The District implemented this Statement in its fiscal year beginning October 1, 2014.

In April 2013, GASB issued Statement No. 70 *Accounting and Financial Reporting for Non-exchange Financial Guarantees*. The objective of this Statement is to improve accounting and financial reporting by state and local governments that extend and receive non-exchange financial guarantees. The provisions of this Statement are effective for reporting periods beginning after June 15, 2013. Earlier application is encouraged. Except for disclosures related to cumulative amounts paid or received in relation to a non-exchange financial guarantee, the provisions of this Statement are required to be applied retroactively. Disclosures related to cumulative amounts paid or

TINDALL HAMMOCK IRRIGATION AND SOIL CONSERVATION DISTRICT
Notes to Financial Statements (Continued)

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(o) Impact of Recently Issued Accounting Pronouncements (continued)

received in relation to a non-exchange financial guarantee may be applied prospectively. The District does not have any transactions that are required to be reported under this GASB.

(3) CASH AND INVESTMENTS

Amounts on deposit at a financial institution on September 30, 2015, consisted of the following accounts, which, in addition to being insured by the Federal Deposit Insurance Corp. (FDIC) to \$250,000, are secured by collateralized securities as required under Chapter 280, of the Florida Statutes:

| | |
|-----------------|---------------------|
| Cash - checking | \$ <u>1,705,943</u> |
| | \$ <u>1,705,943</u> |

(4) MAINTENANCE TAXES AND SPECIAL ASSESSMENTS

Maintenance taxes and special assessments attach as an enforceable lien on the owners' property as of January 1. The taxes are levied on November 1 and are payable, without penalty, from November 1 to the following March 31. Broward County bills and collects these taxes and assessments and remits these proceeds to the District. Payments made after March 31, are subject to late payment fines. Any amount unpaid as of June 30, result in a tax certificate sale to investors. The District receives its share of the certificate sales which usually reflects the full amount due to then District. There were no material delinquent taxes as of September 30, 2015.

(5) INTER-FUND ADVANCES

The composition of inter-fund balances as of September 30, 2015, is as follows:

| <u>Receivable Fund</u> | <u>Payable Fund</u> | <u>Amount</u> |
|------------------------|---------------------|---------------|
| General Fund | Proprietary Fund | \$6,418,133 |

The amount receivable in the General Fund represents a working capital transfer to the Proprietary Fund.

TINDALL HAMMOCK IRRIGATION AND SOIL CONSERVATION DISTRICT
Notes to Financial Statements (Continued)

(7) LONG - TERM DEBT

Debt of governmental activities at September 30, 2015 included the following:

| | |
|---|--------------|
| \$3,000,000 Ad Valorem Tax Capital Improvement Note, Series 2010, interest at 1.5% above bank Libor, maturing on and paid in full on November 30, 2015. | \$ 1,000,000 |
| | \$ 1,000,000 |

The future annual debt service requirements are as follows:

| | <u>Principal</u> | <u>Interest</u> | <u>Total</u> |
|-----------------------------------|---------------------|-----------------|---------------------|
| Year ending September 30, 2016 | <u>\$ 1,000,000</u> | <u>\$ 4,185</u> | <u>\$ 1,004,185</u> |

(8) RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets, errors and omissions and natural disasters for which the District carries commercial insurance.

(9) ACQUISITION OF WATER AND WASTEWATER UTILITY SYSTEM

The District acquired Ferncrest Utilities, Inc. on November 3, 2008, through the issuance of \$1,983,587 of its Ad Valorem Tax Bond Anticipation Notes, Series 2008, in payment of a portion of the purchase price of \$4,240,000. The balance of \$1,900,000 was an in-kind contribution to the District. On November 11, 2008, the District approved resolution 2008-20 which authorized the execution and delivery of a Master Trust Indenture in connection with the issuance of not to exceed \$15,000,000 aggregate principal amount of its Tindall Hammock Irrigation and Soil Conservation District (Davie, Florida) Ad Valorem Tax Bonds, Series 2008 (the "Series 2008 bonds"). The resolution also appointed a trustee, provided for severability, provided for an effective date, and for other general purposes. As of September 30, 2015, the District had not yet issued any bonds authorized under the resolution.

During 2009, a major landowner within the District undertook a closure of a mobile home community that represented approximately 900 residential customers. The land is proposed to be used for other than mobile home purposes. Redevelopment of that land has begun to occur and the utility has recognized revenue during the year relating to the redevelopment. Continuing revenue growth resulting from continued development is expected over the next two to three years.

TINDALL HAMMOCK IRRIGATION AND SOIL CONSERVATION DISTRICT
Notes to Financial Statements (Continued)

(9) ACQUISITION OF WATER AND WASTEWATER UTILITY SYSTEM (continued)

The District obtained financing for the utility system and drainage improvements via the \$3,000,000 Ad Valorem Tax Capital Improvement Note, Series 2010.

The District's utility service area is located within the Town of Davie ("the Town"). The Town has approved certain land use amendments, and the redevelopment of several larger parcels within the District has led to an increase in both service revenue and ad valorem tax revenue in the current year. The continuing redevelopment is expected to increase both revenue sources for several years.

(10) UTILITY PLANT ACCESS

During due diligence of the acquisition of the utility system, the current access to the utility plant had been an issue. Currently, access to the utility plant is through another property owner's private streets. Access is currently available through these private streets and the property owner has made no demands to the District to cease using this access. The District has not been able to obtain a recorded ingress and egress to the plant, however, the District maintains the utility system within the property owner's land and development.

(11) REGULATORY ISSUES

The District is engaged in certain environmental and regulatory issues that are applicable to the manner in which the District operates its drainage systems and its water and sewer system. The District has approved a multi-year Capital Improvement Program (CIP) which when completed will make all of the District systems compliant with current regulations. The District began implementing the CIP in fiscal year 2014 with the issuance of a bid request and continues in its compliance efforts.

(12) RELATED PARTIES

In accordance with Special Act of the Legislature (Chapter 98-523, Laws of Florida, as amended), the District Board of Supervisors is elected by the owners of land within the District, with each landowners' vote being based on the land area (acres) that each landowner owns. A significant portion of the land within the District is owned by members of the Board of Supervisors and related parties. As a result, certain issues come before the District Board of Supervisors from time to time involving the District and these related parties. When these issues come before the Board involving individuals related to Board Members, the District receives opinions of third parties to provide guidance, advice and recommendations regarding these issues and voting on said issues.

TINDALL HAMMOCK IRRIGATION AND SOIL CONSERVATION DISTRICT
Notes to Financial Statements (Continued)

(12) RELATED PARTIES (continued)

On November 3, 2008, the District entered into an amended and restated lease agreement, with a related party allowing the District to discharge and dispose treated wastewater in accordance with its wastewater and disposal system permit issued by the Florida Department of Environmental Protection into a lake owned by the related party. The lease currently calls for minimum lease payments of \$2,856 per month. The District incurred \$35,207 in lease expense for the period ended September 30, 2015.

(13) SUBSEQUENT EVENTS

The District has performed an evaluation of subsequent events through May 16, 2016, which is the date the financial statements were available for issue.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Supervisors of the
Tindall Hammock Irrigation and Soil Conservation District:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, and each major fund and the aggregate remaining fund information of Tindall Hammock Irrigation and Soil Conservation District ("the District"), as of and for the year ended September 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated May 16, 2016.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S MANAGEMENT LETTER REQUIRED BY CHAPTER 10.550, RULES OF THE STATE OF FLORIDA OFFICE OF THE AUDITOR GENERAL

To the Board of Supervisors of the
Tindall Hammock Irrigation and Soil Conservation District:

We have audited the financial statements of the Tindall Hammock Irrigation and Soil Conservation District, whose headquarters is located in Davie, Florida, as of and for the fiscal year ended September 30, 2015, and have issued our report thereon dated May 16, 2016.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Chapter 10.550, Rules of the Florida Auditor General. We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*, and Chapter 10.550, Rules of the Florida Auditor General. Disclosures in those reports, if any, which are dated May 16, 2016, should be considered in conjunction with this management letter.

Additionally, our audit was conducted in accordance with Chapter 10.550, Rules of the Auditor General, which governs the conduct of local governmental entity audits performed in the State of Florida. This letter includes the following information, which is not included in the aforementioned auditor's reports or schedule:

- Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. There were no corrective actions, or recommendations made in the preceding annual financial report that need to be discussed in the current management letter.
- Section 10.554(1)(i)2., Rules of the Auditor General, requires that we address in the management letter any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.
- Section 10.554(1)(i)3., Rules of the Auditor General, requires that we address noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not have any such findings.
- Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. The Tindall Hammock Irrigation and Soil Conservation District was originally established pursuant to the provisions of Chapter 98-523, a Special Act of the Florida Legislature in 1951. There are no component units of the Tindall Hammock Irrigation and Soil Conservation District to be disclosed as required by accounting principles generally accepted in the United States of America.
- Section 10.554(1)(i)5.a., Rules of the Auditor General, requires a statement be included as to whether or not the local governmental entity has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of the specific condition(s) met. In connection with our audit, we determined that the Tindall Hammock Irrigation and Soil Conservation District did not meet any of the conditions described in Section 218.503(1), Florida Statutes.
- Section 10.554(1)(i)5.b., Rules of the Auditor General, requires that we determine whether the annual financial report for the Tindall Hammock Irrigation and Soil Conservation District for the year ended September 30, 2014, filed with the Florida Department of Financial Services pursuant to Section 218.32(1)(a), Florida Statutes, is in agreement with the annual financial audit report for the year ended September 30, 2014. In connection with our audit, we determined that these two reports were in agreement.
- Pursuant to Sections 10.554(1)(i)5.c, and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures. It is management's responsibility to monitor the Tindall Hammock Irrigation and Soil Conservation District's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same as of September 30, 2015, and through the date of our audit report, May 16, 2016.

- Pursuant to Section 215.985(11), Florida Statutes and Section 10.554(1)(i)6.a, the District provided monthly financial statements to its governing board and has made such financial statements available for public access on the District's website.
- Pursuant to Section 218.32(1)g Florida Statutes and Section 10.554(1)(i)6.b, the District has provided a link on their website directly to allow the viewing of the District's annual financial report.
- Pursuant to Section 373.536(5)(d) and (6)(d) Florida Statutes and Section 10.554(1)(i)6.c, the District has provided a link on their website directly to allow the viewing of the District's tentative and final adopted budget for the current fiscal year.

Pursuant to Chapter 119, Florida Statutes, this management letter is a public record and its distribution is not limited. Auditing standards generally accepted in the United States of America require us to indicate that this letter is intended solely for the information and use of the Board of Commissioners of Tindall Hammock Irrigation and Soil Conservation District, management, and the Florida Auditor General, and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Margolies, Jink and Wichrowski
