

Responses to Questions #3 07/17/26

Attached please find the 1) PFAS results and 2) the prior two years of CCRs (these are posted to the website). As to other questions, please see the responses in red below:

3) Will THISCD provide an office space for employees? **Yes, space will be provided in the office building (where the pre-proposal meeting was held).**

4) On the Cost Proposal Form (Attachment 1), should our "Extended Price" represent only our fixed management fee and the cost of the two Veolia-supplied employees, or should it be an estimate of the entire facility budget (including pass-through costs)? **It appears that this form was confusing to all parties. On that note, I have revised the form (also attached) which will reflect the price for the Veolia services/positions for the three year initial contract period along with information on the estimated quantity of on-site and total available hours for each of the two provided employees. The revised form will also be added to the website.**

5) Will THISCD purchase all items for Repairs and Maintenance? **Yes in addition to any capital acquisitions and the Ferncrest staffing cost.**
